

My comment is regarding the possibility of Low Power FM stations being given priority over FM translator service. My and family and I listen to K-LOVE all the time. (K-LOVE is powered by FM translator service.) K-LOVE is tuned in as we drive in the car, on the radio in our home and at work throughout the day. K-LOVE provides positive, wholesome, and fun music for the whole family. Music that I do not have to "sensor" to make sure it is okay for my children to listen to. Many of the families at our school and in our community enjoy K-LOVE because of this and there are no commercials! You get music anytime you tune in. Please don't let LPFM take priority over FM translator service.
